## Profile

IT Support Specialist and Data Analytics student with hands-on experience in technical troubleshooting and business-focused data projects.

Skilled at translating raw data into clear insights and dashboards that support operational and strategic decision-making.

Bringing strong customer-facing experience from both sales and technical support environments.

## Relevant Experience

### Help Desk | Taldor - One Technologies (SITA) | TLV Airport | 2026-Present

- Provide 24/7 on-site and remote technical support in a high-pressure airport environment supporting 250+ check-in counters and boarding gates.
- Troubleshoot hardware, software, and network issues to ensure minimal operational downtime.
- Perform system imaging and deployment via cloud environments.
- Manage and resolve incidents using Service Gateway ticketing system.
- Support Windows and macOS environments.

### Sales Representative | Spirit World productions | 2022 - 2023

- Consistently generated ~\$70K in average monthly revenue by consulting and selling customized luxury travel experiences to private clients.
- Translated customer feedback from multiple platforms into actionable insights for the marketing team, improving campaign effectiveness.
- Delivered 24/7 customer support, increasing client satisfaction and retention.

## Data Analysis Projects

**Marketing Strategy Analysis** - Analyzed lead conversion funnel using **Python** and **Power BI** to identify high-performing marketing channels.

**Tech Trends Analysis** - Built dashboards using **IBM Cognos** and performed trend analysis to uncover emerging technology adoption patterns using different **Python** Libraries.

**World Happiness Analysis** - Analyzing the key factors influencing happiness across countries using the World Happiness Report dataset using **Python** & **Plotly** library creating an interactive dashboard.

## Education & Certifications

IBM Professional Data Analyst Certificate - 2026

Data Analyst Expert Program - John Bryce - 2026

## Data Analysis Tools & Skills
